Who We Are –Pebble Flex of Florida, LLC. installs Poured in Place Safety Surfacing. We believe in “Old School” work ethic, and treat each of our clients and vendors as if they were a part of the team. We are licensed and insured and provide the highest, most sophisticated and innovative poured in place surfacing products in the world. Our highly skilled installers combined with the finest product in the world our installations are second to none in customer satisfaction.

Job Description - Pebble-Flex® is a soft safety surface. It is breakthrough technology – UV light stable, tightly bonded, aliphatic thermoplastic urethane polymer. It is processed into spheres for better compaction and strong chemical bonding. Its proprietary formulation gives the surface a long, long life. Because of its chemical bonding and the fact that it does not degrade in sunlight, Pebble-Flex® provides excellent resurfacing properties. It allows uneven areas to be leveled and depressions to be filled in. Most commonly applied around pool decks, spas, playgrounds and splash pads and can be installed directly over cracked old concrete, Trowelers will be responsible for trowling product in place after receiving it from the mixer. This requires a high degree of skill with attention to detail and workmanship. Duties include: trowling, cleaning tools, prepping floors by scraping and cleaning with muriatic acid, and other duties as assigned.

Who Are our Customers - Pebble of Florida, LLC. maintains ongoing relationships with some of the largest theme parks in the world. We have installed a countless number of playgrounds and commercial and residential pool decks.
